

## 'Non-radar Approach into Lebanon, NH' IFR Scenario: Green Bay IMC Club

A good activity for anyone interested in instrument flying. Join us for discussion of an Angel Flight that did not proceed as planned. Use real world scenarios to increase your level of safety in the IFR environment. Safe instrument flying is a matter of mitigating risk, personal minimums and standard operating procedures. The Green Bay IMC Club provides organized "hangar flying" focused on building proficiency in instrument flying. An instrument rating is not required for attendance. The IMC Club meeting will begin at 7 pm. A separate pre-meeting Wings seminar 'Meet the Examiner – Avoid Common Errors and Understand the New ACS' will begin at 6:00 pm.

**Directions:** Upper level meeting area

### **A message from the National FAASafetyTeam Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
